

BADMINTON (Doubles only) – Male/Female and Mixed

24. Teams consist of two (2) males (men's), two (2) females (women's) and one (1) male and one (1) female (mixed).
25. Scoring is continuous for the duration of the game (no sets or end changes).
26. Points are awarded per serve - for example, if the serving team commits a fault, a point is awarded to the opponent; if the receiving team commits a fault the serving team wins the point.
27. Player one (1) serves five (5) consecutive times, it then moves to the opposing team to serve five (5) times, then back to 3rd player (on the first team) to serve five (5) times.
28. Service faults include hitting the shuttle above waist height; server or receiver not standing in correct service area; and shuttle landing outside the correct service area.
29. A general fault has occurred when the shuttle drops outside the court or fails to go over the net; a player hits the shuttle twice in a row; both partners hit the shuttle on consecutive shots; or the net is touched while the shuttle is in play.
30. A let is played if the server serves from the wrong service court; players on opposite teams commit faults at the same time; the shuttle gets damaged or caught in the net; or another shuttle lands on the court.
31. Due to time restraints service will be alternate sides rather than teams scoring until both players have served. The team mentioned first in the fixtures book will serve first.

EQUIPMENT AND SAFETY

- Players to supply their own badminton racquets.
- SYG will supply shuttlecocks
